

6 Line Cylindrical Lock

The 6 Line is a styled standard duty lock line incorporating a broad spectrum of functions, designs and finishes.

Versatility

- Lockbody fits doors from 1-3/8" (35mm) to 1-3/4" (44mm) thick
- Latches are available in 4 standard backsets
- Non-handed or field reversible (except Removable Core)
- Fits ANSI 115.2 (160 and 161) door prep
- Multiple latches and strike options available including radius/round applications
- Wide variety of functions and prefixes
- SL lever design meets national ADA handicapped requirements

Convenience

- Installs with just two lockbody screws for easy installation and maintenance
- Mix rose and knob designs for a custom look - 2 knob/1 lever and 4 rose designs

Quality

- Complements and blends with trim designs of other SARGENT locks for unified appearance
- Exceeds ANSI A156.2 Series 4000 - Grade 2
- Accepts SARGENT standard, high security and removable core cylinders
- Quality finishes with split finishes optional
- Fire Code compliance with all functions depending on application
- MicroShield™ permanent silver-base antimicrobial coating. Patent pending.
